

**TOILET ODOR BLOCKING SYSTEM, METHODE OF USE AND BIDET**

**Inventor: Zoltan Egeresi**

**Santa Cruz, CA**

**ABSTRACT OF THE DISCLOSURE**

The object of this invention is create an inexpensive highly effective toilet odor blocking system with low maintenance, low cost to block any or all odor from escaping from the toilet bowl by generating a continuous stream of bubbles to cover human waste using liquid soap, air pump and low volume water flow. Same system with higher water volume becomes a toilet bidet by using a special bubble / bidet adapter.

A handwritten signature in black ink, appearing to be 'Zoltan Egeresi', located at the bottom left of the page.
